Introduction

Thank you very much for your purchase of our product of LED TV. It serves as a normal color TV and PC monitor. To enjoy your TV to the full from the very beginning, read this manual carefully and keep it handy for ready reference.

INSTALLATION

- ① Locate the TV in a room where direct light does not strike the screen. Total darkness or a reflection on the picture screen can cause eyestrain. Soft and indirect lighting is recommended for comfortable viewing.
- ② Allow enough space between the receiver and the wall to permit ventilation.
- ③ Avoid excessively warm locations to prevent possible damage to the cabinet or premature component failure.
- ④ Do not install the TV in a location near heat sources such as radiator, air ducts, direct sunlight, or in a place somewhere like close compartment and close area. Do not cover the ventilation openings when using the TV.
- ⑤ The indicator light will last about 30 seconds to go out after cutting off the electricity, during this period, you cannot repower it on until the indicator light goes out, thanks a lot for your attention!

Warning

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO AVOID THE RISK OF ELECTRIC SHOCK,
DO NOT REMOVE COVER (OR BACK).
NO USER- SERVICEABLE PARTS INSIDE.
REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This symbol is intended to alert the user to avoid the risk of electric shock, do not disassemble this equipment by anyone except a qualified service personnel.

This symbol is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the equipment.

WARNING

Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- a) –Using cabinets or stands recommended by the manufacturer of the television set.
- b) – Only using furniture that can safely support the television set.
- c) – Ensuring the television set is not overhanging the edge of the supporting furniture.
- d) – Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- e) – Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- f) – Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

Quick installation guide

Caution

High voltages are used in the operation of this product.
Do not open the product's casing. Refer servicing to qualified service personnel .

To prevent fire or electrical shock hazard, do not expose the main unit to rain or moisture, do not place objects filled with liquids, such as vases, on the apparatus.

Do not drop or push objects into the television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

Avoid exposing the main unit to direct sunlight and other sources of heat. Do not stand the television receiver directly on other products which give off heat. E. g. video cassette players, Audio amplifiers. Do not block the ventilation holes in the back cover. Ventilation is essential to prevent failure of electrical component. Do not squash power supply cord under the main unit or other heavy objects.

Caution

Caution

Never stand on, lean on, push suddenly the product or its stand. You should Pay special attention to children.

Caution

Do not place the main unit on an unstable cart stand, shelf or table. Serious injury to an individual, and damage to the television, may result if it should fall.

Caution

When the product is not used for an extended period of time, it is advisable to disconnect the AC power cord from the AC outlet.

Caution

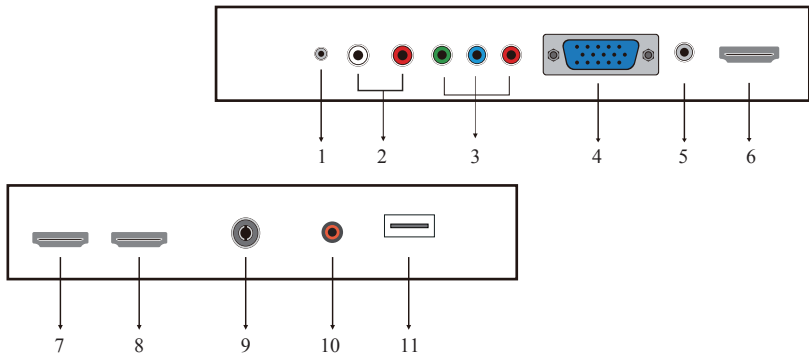

The LED panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the LED panel breaks.
